

## Fogging Gun GRIV-27-ML-FM05

Voltage : AC 110/220V, 50-60Hz  
Power : 1200W  
Smoke Output : 15000 cu.ft / min  
Spray distance : 2-3 m  
Material : Plastic  
Capacity : 260 ml  
Consumable: Non-Alcohol Disinfectant

For Home, Office and Personal Areas

## Lightweight Fogging Machine GRIV-27-PFM

Voltage: 110V / 220V / 230V  
Power: 900 W  
Smoke Output: 2000 cu.ft / min  
Material: Plastic  
Capacity: 100 ml  
Warm-up time: 5 mins  
Consumable: Non-Alcohol Disinfectant

For Home, Office, Cars,  
Small Businesses, Hotels,  
Gyms and more!

## ULV Cold Fogger GRIV-16-FM01

Ultra Low Volume (ULV) fogging machines use large volumes of air at low pressures to transform liquid into droplets that are dispersed into the atmosphere.

Positively charged ions cover even small crevices and hard to reach areas.  
Droplet Diameter: 9-49 microns  
High Quality Air Filter

For large rooms and offices,  
effective for commercial use.

# Air & Surface Sanitizing Fog

In response to the safety and virus prevention measures being implemented worldwide to combat the spread of COVID-19, Disinfection Fogging Machines are now being used to provide thorough disinfection in all home and business areas.

- ✓ Easily disinfect hard to reach places that may carry germs
- ✓ Sanitizing fog leaves no marks or residue, safe for all areas
- ✓ Evaporating biomist is effective on skin, hair, cloth and plastic

SHIELDme® Disinfectant Solution has been tested and approved by EC International Certification.

All-Natural, no-alcohol solution is non-irritant on skin and eco-friendly with no harsh chemicals.

This high level disinfectant kills 99.9% of viruses, bacteria, fungi, mold and spores to keep your spaces safe and clean.
