

## ACCESSIBLE

The simple walk through design is easy to use and allows effortless sanitation in businesses and public places. The human motion detector ensures no-touch pass through.

Customizable branding and design options offer flexibility to fit the desired location.

## SAFE

ShieldME® natural disinfectant is an alcohol-free & non-irritant solution that has been tested and approved as safe for humans by EC International Certifications.

Non-toxic and non-flammable, this eco-friendly product is safe for all members of the population.

## EFFECTIVE

The high pressure fogging system provides each entrant with 360 degrees of safe, non-staining disinfectant spray which kills 99.99% of bacteria, viruses, fungi, mold and spores.

The disinfectant is effective on most surfaces.

# High Pressure Sanitizing Gate

In response to the safety and virus prevention measures being implemented worldwide to combat the spread of COVID-19, Disinfecting Sanitization Gates have been created to provide effortless human disinfection using a walk through tunnel and sanitizing mist.

Easy maintenance and adjustable timer and pressure settings make using the tunnel easy for anyone. Each tunnel includes ramp access and a laser sensor to automatically disinfect people who enter.

### Options for Tunnel Cladding Material

- |                      |                              |
|----------------------|------------------------------|
| <b>GRIV-27-STV</b>   | Flex Vinyl                   |
| <b>GRIV-27-STHPL</b> | High Pressure Laminate (HPL) |

- ✓ Locally manufactured in Oman
- ✓ 1 Year warranty on all models
- ✓ Custom branding on exterior
